

PROPOSED IMPROVEMENTS – OVERALL PROJECT LIMITS

KEY NOTES

- 1** The West Main Street typical section will have two lanes in each direction, a two-way left turn lane with dedicated left turn lanes at the intersection, new curb and gutter new 5 ft sidewalks offset from the back of the road.
- 2** Covent Rd. will be restricted to Eastbound traffic at intersection with N Weston Rd. to reduce dangerous turning movements.
- 3** A center median will be installed for access control to restrict left-turns out of the McDonald's parking lot and provide safe access to S Weston Rd.
- 4** Dedicated right- and left turn lanes will be added to help reduce unnecessary queuing at the Dorset Rd. intersection.
- 5** The traffic signal at Dorset Road will be reconstructed to improve signal head visibility and adjust signal timings for increased traffic flow.
- 6** Curb Ramps will be updated along length of the project to improve pedestrian access.
- 7** Pavement will tie into proposed improvements from Phase 1 before Ridge Ave.
